

Astrc, derived from **Astro**, which can also be considered as a nickname. If you know **Jacques Webster**, aka **Travis Scott** and also **La Flame** in French, one of the most famous rappers and artists in the world, then you know what it is.

Astro is one of the **Ad-Libs**^[^1] created by Travis Scott. La Flame also came out with a hit album **ASTROWORLD** on August 3, 2018. Do an ad-lib anytime you want! For me it'll be like "ASTRO!!!".

About ME:

- An undergraduate student at Department of Robot Engineering, Peking University.
- Good at **slack off**^[^2], and **screw up**^[^3].

About ME:

Check my Github down below.

ASTROWORLD is an alias I'd like to name my PLACE, presented by who I am.

[^1]: **Ad-Libs**: short for "ad libitum" which means "at one's pleasure", usually exist in hip-hop songs.

[^2]: slack off: 俗称划水、摸鱼。

[^3]: screw up: 俗称摆烂。
